

William R. Horinek

williamhorinek.com - wrhorinek@gmail.com

PROFESSIONAL SUMMARY

Motivated and detail-oriented professional with a strong foundation in technology, problem-solving, and security awareness. Adept at quickly learning emerging technologies, applying critical thinking to mitigate risks, and collaborating across teams to strengthen security posture. Seeking to leverage technical aptitude, analytical skills, and a commitment to protecting information systems to further develop expertise in network defense, ethical hacking, and digital forensics.

EDUCATION

-Bachelor of Science: Information Communication and Technology

-Florida State University

Tallahassee, Florida

PROJECTS

-Portfolio: williamhorinek.com

- Built and deployed a responsive portfolio website using HTML, CSS, and JavaScript, with GitHub-based version control and Cloudflare Pages deployment.

-Congressional Market: market.williamhorinek.com

- Built a public House and Senate financial-disclosure platform using Python, PostgreSQL, FastAPI, Docker, and automated data-ingestion workflows.
- Designed for resilient collection, source provenance, auditability, and a clear separation between public-source records and derived analysis.
